

**DIOXIN
2019 KYOTO**

*39th International Symposium on
Halogenated Persistent Organic Pollutants*

Chair : Shinichi Sakai

Director, Professor, Environment Preservation Research Center
Kyoto University

August 25 ▶ 30, 2019
Kyoto International Conference Center

**Abstract Submission
Deadline (Final)
May 28**

Congress Secretariat : dioxin2019@congre.co.jp

**DIOXIN
2019 KYOTO**

Call for Papers

Abstract Submission Deadline is extended to
Tuesday, May 28, 2019

Plenary Sessions

► Monday, August 26

Prof. David Sherr

Boston University School of Public Health
The AHR: A Major Player in Cancer Aggression and Immune Checkpoint Regulation

► Tuesday, August 27

Prof. Hideshige Takada

Tokyo University of Agriculture and Technology
Hazardous chemicals in marine plastics and their threat to marine organisms

► Wednesday, August 28

Prof. Frank Wania

University of Toronto Scarborough
Modelling Polychlorinated Biphenyls: Mechanistically Linking Chemical Production to Human Exposure and Health Effects

► Thursday, August 29

Prof. Dr. Adrian Covaci

University of Antwerp
Human biomonitoring and exposomics of legacy and emerging chemicals

► Friday, August 30

Prof. Teruhiko Kido

Kanazawa University
Dioxin and health effects in Vietnamese

Dr. Nguyen Hung Minh

Ministry of Natural Resources and Environment, Vietnam
Dioxin and health effects in Vietnamese

Regular Sessions

- Analysis
- Levels and Trends (Abiotic)
- Levels and Trends (Biota)
- Levels and Trends (Foods and Feeds)
- Fate and Transport
- Human Exposure
- Metabolism and Toxicology
- Ecotoxicology
- Epidemiology
- Physico-chemical Properties and Modeling
- Risk Assessment
- Formation, Sources and Control
- Policy
- Microplastics and POPs
- Flame Retardants
- Fluorinated Organic Compounds

Special Sessions -invited-

- Asian POPs Monitoring
- PCB Waste Management
- Children's Health: Birth Cohort Studies

Special Sessions -open-

- Microplastics as Environmental Vectors for POPs and Additives
- Chlorinated Paraffins – Pollutants of High Environmental and Health Concern
- Dioxin Health Hazard in Vietnam
- POPs in the Developing World
- POPs in Pets and their Applicability as Models for Human Health
- From Good Science to Good Risk Management
- The Biotic Exposome of Emerging Flame Retardants in the Global Environment
- Legacy and Emerging Flame Retardants: Biotransformation and Bioavailability
- Flame Retardants in Human Tissues Implications for Human Exposure
- Large Scale Biomonitoring

Otto Hutzinger Award

The Otto Hutzinger Student Awards are presented for outstanding student presentations at the annual Dioxin Symposium to acknowledge their scientific contribution to the field of halogenated persistent organic pollutants.

Six awards will be granted to two students in each of the following three categories:

- Sources and analysis of legacy and emerging POPs
- Environmental occurrence of halogenated persistent organic pollutants
- Human exposure, toxicology and risk assessment of POPs

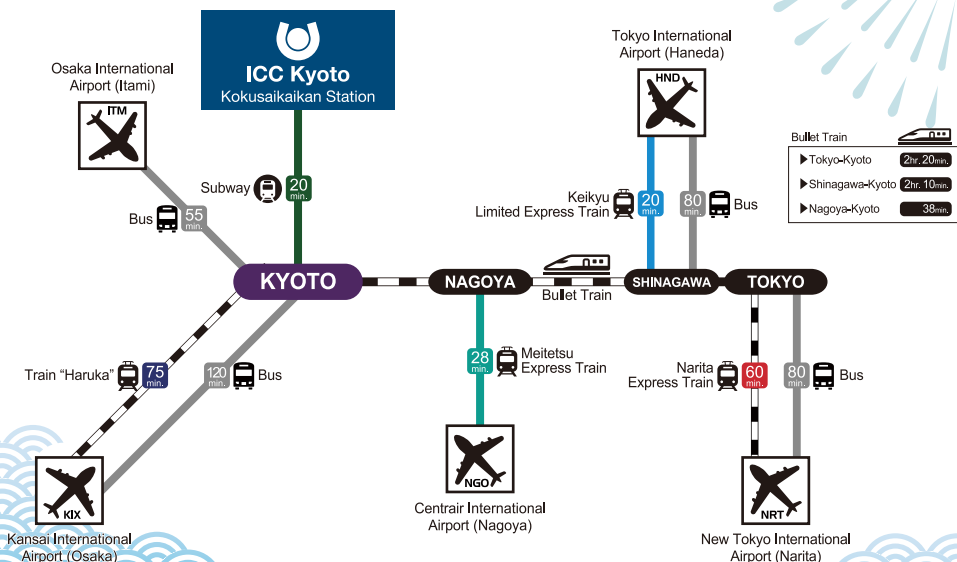

Registration

	Pre-Registration (Noon, July 19 - Noon, August 9, 2019)	Early bird Registration (April 12 – Noon, July 19, 2019)
Full Delegates	JPY100,000	JPY80,000
Students (including doctoral students)	JPY50,000	JPY40,000
Day Pass (Two Days)	JPY50,000	JPY50,000
Exhibitor Rate	JPY20,000	JPY20,000

Access to Kyoto

Access to Kyoto International Conference Center
