

Name of Special Session

POPs in the Developing World

Chairs and/or Organizers

Dr. Bondi Gevao

Environmental Pollution and Climate Program

Kuwait Institute for Scientific Research

Kuwait

Dr. Karla Pozo

Masaryk University, RECETOX

Brno, Czech Republic

Objective

The session will focus on studies of levels and spatial distribution of POPs and emerging contaminants in different environmental compartments including biotic and abiotic matrices. In addition, this session will also focus on various monitoring programs to investigate the levels of these contaminants in different media e.g., air and human exposure programs and to identify their effectiveness at addressing targeted environmental goals.
